

BMA CONSULTANTS
MARINE SURVEYORS
MARINE SERVICES

Professional and Reliable since 1996

BMA was formed in 1996 to meet the demand from a range of companies and with staff who have over 40 years of maritime experience, we are now a leading provider of these specialised services.

We pride ourselves in delivering a personal, reliable and professional service in the UK and over 30 other countries. Through associate offices in Belize, Pakistan and Taiwan, as well as an established network of associates we are well placed to provide a comprehensive range of global marine services, whilst maintaining a strong sense of integrity, confidentiality and personal service.

We opened our office in Southampton in 2016 to further expand our services to include port consultancy in order to assist our clients with their shipping logistics requirements. We also work to develop their various port related projects.

We are currently active with molasses, vegoil, steel, fertiliser, grain, wood pulp, salt and project cargo surveys as well as a growing bunker survey division.

In conjunction with our commercial partners we also provide a range of marine services such as hull cleaning, propeller polishing, IWS for class and in water ship repairs. Hold and tank cleaning services and mobile sweeping gangs for molasses and palm oils. Salvage support services.
